

## Summary of Community Meeting No. 3

MASTER PLAN FOR JOHN TREVIÑO JR. METROPOLITAN PARK AT MORRISON RANCH

The third community meeting for the John Treviño Jr. Metropolitan Park Master Plan took place on Saturday August 24, 2019 in the cafeteria auditorium of Barbara Jordan Elementary School.

Upon arrival, meeting participants were presented with a packet containing an interactive sticker game sheet, information about four preliminary master plan concepts, and a comment/question card. These materials provided the opportunity for individuals to imagine their ideal day at the park and vote on the combination of schemes that would best support their experience. Open-house style informational boards provided a summary of community feedback to date and details about preliminary concepts for Treviño Park. A digital slideshow of site photos ran in the background on a screen at one side of the room, and blank postcards sprinkled throughout the central tables allowed participants to draw their visions of what they would like to see at the park.

During the meeting, GGN gave a 30-minute slideshow presentation outlining four preliminary concepts for the Prairie (upland) and River (floodplain) areas of the site. KVUE was present to record footage and interviews during the event, and Capital Metro hosted an informational table to share relevant information about public transportation initiatives in the area.

Following the community meeting, an online survey questionnaire on SpeakUp Austin was made available to the public (through October 1). The survey link was distributed via email to the project's ongoing stakeholder list and was also listed on Treviño Park Master Plan's main website alongside digital meeting materials.

## Inventory of materials presented for engagement

Information about Preliminary Master Plan Concepts was shared with the community through verbal and visual modes: Participants learned about the site and master planning process through conversation with the master planning team, a 30-minute slideshow presentation, a running photo slideshow, a 3-d topographical model, and interactive printed boards and handouts. *Public meeting materials are available at full size at www.austintexas.gov/JohnTrevinoMetroPark*.

#### **Understanding the Site**

- Existing conditions map of notable ecological or heritage features at Treviño Park.

#### Discovery in the Park

- Drawings that illustrate an approach to thinking about how interactions between program, place, and community generate broader impacts of the park

#### My Day at Treviño Park

- Bingo-like game sheet for imagining three different days at Treviño Park
- Four concepts on other side of handout for voting on preferred site schemes

#### Prairie + River Concepts

- Info sheet with preliminary concepts and proposed program for:
  - Prairie concepts
  - (A) Ranch or
  - (B) Town; and
  - River concepts
  - (C) Forest Fields or
  - (D) Clearing

#### Draw your own postcard

- Blank postcards that invited participants to draw their own ideas for the park

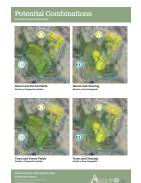

#### Other Visual Information

- Printed Existing
   Conditions, Opportunities
   and Challenges Reports
- Physical 3D topographical model of site
- Slideshow of park photos
- Drone video footage of Treviño Park

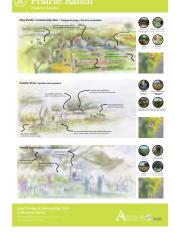

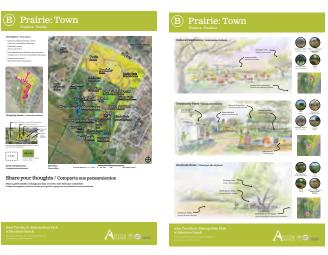

## Preliminary Concept Boards: Prairie + River

Four preliminary concept plans were presented with accompanying sketch ideas about what each place could be like. Boards included primary transportation (vehicle, bike, pedestrian) access diagrams, scale comparisons, and sketch "moments" with potential programming elements reflected in the game sheet handout. Meeting participants were encouraged to place green stickers on things that they liked, and to add comments on sticky notes with additional ideas or suggestions.

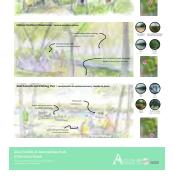

River
C) Forest Fields

River D) Clearing

## Materials from Community Meeting No. 2

Boards shown at the Community Meeting #2 "What We've Heard" (July 11, 2019) were placed along a wall of the meeting space to provide a summary of the development of master planning values, feedback to date from in-person community engagement and the public survey questionnaire, and demographic information about survey participants. Both English and Spanish versions of the boards were available.

#### Vision for Treviño Park

- Narrative of three main categories that structure the master plan approach, developed based on feedback to date

# What is the role of Treviño Park?

- Draft planning values that guide the master plan process, developed based on feedback to date

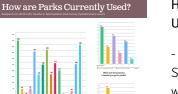

#### Suggestions for the Park

- Most common program suggestions from over 1,000 elements and ideas listed in response to the question, "What would you like to see or do at John Treviño Jr. Metropolitan Park?
- Analysis from Community Meeting #1 June 8, 2019) and Survey Questionnaire results

# \*\*Continues of the continues of the cont

#### Memories + Stories

# How are Parks Currently Used?

- Tabulated responses from Survey Questionnaire about what people like to do when visiting parks, and barriers to using them.

#### Who Took the Survey?

- Demographic information from Survey Questionnaire respondents

## Public engagement process for Community Meeting No. 3

The master planning team used a variety of engagement strategies to develop initial connections beginning in March 2019:

- Established connections with family members and friends of John Treviño Jr.
- Developed an ongoing project stakeholder and interested parties contact list
- Utilized existing community databases and relationships developed during other master planning efforts and development projects in the area
- Developed small-group discussions to gather perspectives and feedback from potential project "champions" with an interest in or identification with the following categories: Activities and Enrichment, Heritage and Culture, Local Neigborhood, and Nature and Ecology
- Met with project's technical advisory group (TAG) to ensure inter-agency governmental stakeholder input

To advertise the public meeting, the team used the following public outreach strategies:

- Sent EDDM (Every Door Direct Mail) flyers to individuals and households living in park vicinity
- Follow-up e-mails with small-group discussion attendees and TAG group
- E-mail invitations to individuals listed on project stakeholder list, neighborhood associations and community leaders
- PARD social media invitations
- Advertisement on PARD website
- Word of mouth
- Held three small group discussions on August 22 and 23 for the following categories: Nature and Ecology; Neighbors and Activities/Enrichment; and Heritage, Culture, Community and Family

Pink Consulting, the public relations lead on the master planning team, additionally executed the following public outreach and engagement strategies leading up to Community Meeting #3:

- One-to-one engagement with community leaders
- One-to-one engagement with family members of John Treviño Jr.
- Showcasing event on Pink Consulting and personal Facebook page, requesting friends to share
- Personal invitation e-mails to neighborhood association leadership, school principals, and local parent-teacher associations requesting distribution to neighborhood memberships
- Dropped off event flyers at local businesses
- Requested local organizations to promote event in e-newsletters to their memberships (the following organizations
  participated: US Hispanic Contractors Assocation de Tejas and Las Comadres Network, a local Latina network with
  2000+ members connected digitally)
- Personal emails and phone calls to project "champions" developed in small group discussion events
- Participation in two high profile Back to School events in close proximity to Treviño Park, with a pop up booth to promote Community Meeting #3

# Community meeting space at Barbara Jordan Elementary

BELOW, RIGHT Meeting participants discuss goals for the park while filling out their game card and concept preference handouts.

## Neighborhood representation (44 total participants signed in)

44 event participants signed in at the welcome station - 31 recorded their neighborhood on the map and 40 listed their zip code:

NORTH (10): Cherrywood: 2 Heritage Hills: 1 North Lamar: 1 North Shoal Creek: 2 Oakmont Heights: 1 Parmer Square: 1 University Hills: 1 Windsor Hills: 1

#### CENTRAL/SOUTH (11):

Central East Austin: 1 Downtown Austin: 1 Montopolis: 1 South Congress: 8

#### EAST (10):

Agave Neighborhood: 2 Colony Park: 2 Del Valle: 1 Imperial Valley: 2

Meadows at Trinity Crossing: 1 Knollwood on the Colorado: 2

## 40 zip codes recorded from sign-in sheet:

78724: 8	78759: 2
78748: 4	78617: 1
78702: 3	78660: 1
78722: 3	78665:1
78725: 3	78721: 1
78731: 3	78741: 1
78745: 3	78744: 1
78723: 2	78757: 1
78752: 2	

## Participatory Boards: Ranch

Participants were asked to place green dots on elements that they liked, or to write a note with comments.

#### Notable Plan Elements (Green dot counts on plan)

Trails - 5

Community Gardens - 3

Off-leash area - 3

Community Agriculture - 2

Community Resource - 1

Cultural Events - 1

Event Pavilion - 1

Play - 1

Pond - 1

#### Notable Moments (Green dot counts on 3 sketch images)

Prairie Trail - 1

Heritage tree gathering - 1

Family Celebration - 1

- Bird watching + office
- Community gardens
- Flat track, roller derby track, covered
- Hardsurfaced pump track w/ jumplines + skatepark, shade structures!
- MTB + BMX trails/jumps, skatepark
- Please preserve the natural beauty
- Pump Track + Skatepark w/ sun cover
- Skatepark (2)
- Skatepark w/ partial cover
- Wheelchair access
- World class skatepark and music venue, shaded

## Participatory Boards: Town

Participants were asked to place green dots on elements that they liked, or to write a note with comments.

#### Notable Plan Elements (Green dot counts on plan)

Event Pavilion - 3

Play - 3

Trails - 2

Bluff House - 2

Community Gardens - 1

Community Resource - 1

Cultural Events - 1

Off-leash Area - 1

Play Field/Events - 1

Pond - 1

Prairie - 1

#### Notable Moments (Green dot counts on 3 sketch images)

Heritage Trees -2

Barn welcome - 1

Cultural Garden - 1

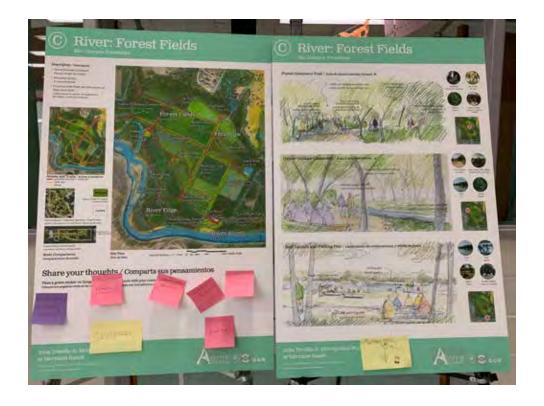

Overlook Picnic - 1

- Covered track for flat track roller derby
- Hardsurfaced pump track w/ jumplines + skatepark, shade structures
- Hay maze
- Pump track + skatepark w/ sun cover
- Skatepark (2)
- Skatepark from Evergreen
- Skatepark w/ partial cover
- Wheelchair Access

## Participatory Boards: Forest Fields

Participants were asked to place green dots on elements that they liked, or to write a note with comments.

#### Notable Plan Elements (Green dot counts on plan)

Future Greenway Connection - 5

Bird Blind - 3

Pecan Grove - 2

River Access - 2

River Ecology Station - 2

River Picnic - 2

5k Trail - 1

Educational Marker - 1

Future River Trail Connection - 1

Multi-Use Trail - 1

Oxbow Classroom - 1

#### Notable Moments (Green dot counts on 3 sketch images)

Trail to Walnut Creek Greenbelt - 2

Forest discovery trail - 1

Kayak and canoe access - 1

Oxbow outdoor classroom - 1

Riverside ranger talks - 1

- Fishing Pier w/ tower
- Kayak dock
- More beautiful flowers
- Pump Track + Skatepark w/ sun cover
- Semi-permanent kayak dock for river entry
- Skatepark
- Skatepark and pumptrack
- Wheelchair Access

## Participatory Boards: Clearing

Participants were asked to place green dots on elements that they liked, or to write a note with comments.

#### Notable Plan Elements (Green dots on plan)

Future River Trail Connection - 4

Future Greenway Connection - 3

Community Agriculture - 2

Mile Loop - 2

River Access - 2

Clearing - 1

Hay Shed - 1

River Edge - 1

River Picnic - 1

#### Notable Moments (Green dots on 3 sketch images)

Lookout Tower - 4

Tailgate picnic - 2

Mile Loop path - 1

Hiking trail access - 1

Flood Plain Fields + Trail - 1

Community agriculture - 1

Bird watching - 1

Youth canoe camping group - 1

- River trail access
- Agricultura (agriculture)
- Boat ramp
- Canchas de volyball, canchas para soccer, seguridad, cabañas (volleyball courts, fields for soccer, security, cabins)
- Lugar para eventos familiares (place for family events)
- Pump track + skatepark w/ sun cover
- River canoe/kayak access + nature trails!
- Skatepark
- World class skatepark

## Handout feedback: Ranch (9 votes) and Town (15 votes)

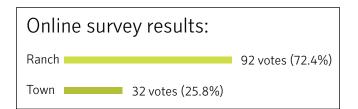

- · Three distinct activity centers
- · Central access
- · Duplicate and distributed park facilities resources
- · Larger spaces closer to perimeter
- Meandering natural paths, no paved roads
- Kayak dock, boat ramp and fishing pier
- Hiking
- Love shade!
- Agricultural connection!
- Like the division/emphasis on 3 sites but the playing fields are too large
- This design seems to have great potential without too much development
- Developed area at the top and leave natural at the bottom
- Community row; prairie trail; family celebration
- Learning about nature
- Porque tenemos el Centro muy cerca para ir de compras ere necesitamos un lugar con ambiente natural de rancho. (We have downtown very close to go shopping so we need a place with a natural environment and ranch feel)

## (B) Town

- · Central combined activity center
- · Perimeter access
- · Consolidated park facilities and resources
- · Larger prairie frame
- World class skatepark suitable for all skill levels
- Seems more efficient and maintains most of "wilderness" (least impactful, preserves more nature)
- Like large prairie front and consolidated facilties
- I like the mixed use that incorporates the barn and the forest down below
- Skatepark!
- Nothing! beats the beauty of nature
- Viewing city, relaxing, having a picnic or just lunch
- I like having the prairie/trails in their own area. Facilities with solar panels to generate electricity for parks

## Handout Feedback: Forest Fields (13 votes) and Clearing (9 votes)

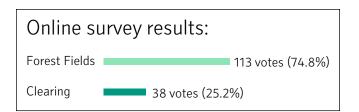

## © Forest Fields

- · Varied forested patchwork
- Perimeter access
- Focus on pedestrian and bike access at flood plain level
- Hiking
- Who doesn't love shade?
- Wooded shade areas are rarity here love this idea of a truly wooded canopy for a big shaded area
- Skatepark!
- Hiking/exploring
- Aprender de la naturaleza y hacer ejercicio a la vez (Learn about nature and exercise)
- Meandering paths please, no roads, natural paths

## (D) Clearing

- · Central open field
- · Central vehicle access to river
- · Potential for informal play fields or agriculture in floodplain
- Kayak, canoe, river access
- Love the idea of look out tower, would like to see playing fields
- Lookout tower
- Picnic area/avenue
- Music and sports
- I'd love a recycled water facility to tour

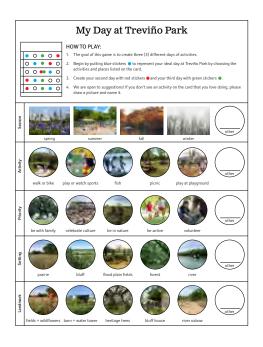

## Handout Feedback: Comments on Preliminary Concepts

- Me gustaria que no hicieran grandes eventos con mucho gente, porque empeoraria el trafico en esta area (I would appreciate if you didn't make large events with a lot of people, it would worsen traffic in this area).
- Que tenga buena vigilancia el parque por parte de la policia (The park should have police security).
- Evergreen skatepark with sun shade. Pump track too.
- Es un hermosa lugar para pasar un bonito dia lleno de vistas bonitas y actividades para hacer ejercicio, jugar etc. (It is a beautiful place to spend a nice afternoon, full of pretty views and activities to exercise, run, play, etc.)
- A skatepark would be a fantastic addition to ANY of these proposed designs. This skatepark could even set itself apart from ALL other skateparks by having a LARGE roof/awning over the entire park.
- Wheel chair access is important; not thrilled about a dog park fenced maybe; event space could be a problem other venues in area.
- My primary reason for attending the this meeting is to advocate for a skatepark. Evergreen skateparks are the cadillac of skateparks, which would be ideal for Austin.
- I like all of these proposals. I think a skate park would be best suited down in the flood plains since it is mostly concrete.

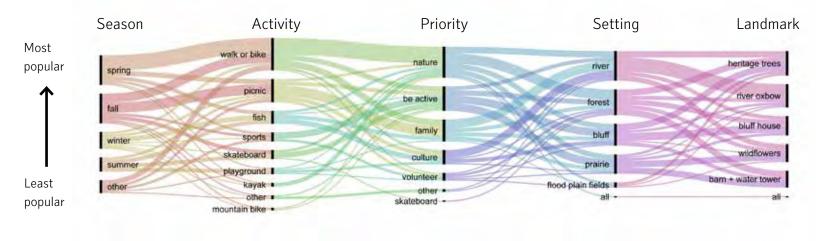

# Handout Feedback: "My Day at Treviño Park"

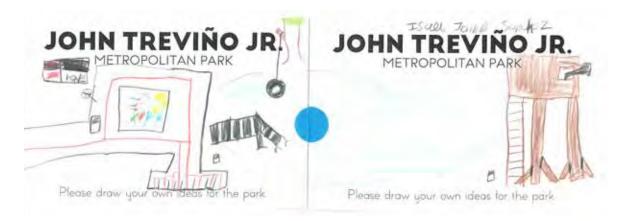

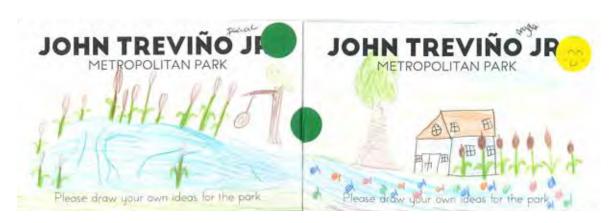

Meeting participants were invited to imagine their ideal day at Treviño Park, creating three different days of activities on a sticker game sheet.

Data below represents 80 combinations created by 28 participants. Popular choices included walking/biking and picnicking in spring and fall. Top priorities include being in nature, being active, and family. Other activity ideas include green belt hiking; kayak/canoe; pump track, jump lines, mountain bike skills loop (hard surfaced), toddler to expert level. Other written-in ideas include skatepark as a priority, boat ramp as a setting, and fishing pier as a landmark.

## Draw your own postcard: ideas for the park

## Online Survey Feedback: "My Day at Treviño Park"

Data below represents 545 combinations created by 208 survey participants. Participants imagine going to the park most during Spring and Fall. The most popular activities include walking/biking or skate/BMX. Other activity ideas include dog walking, bird watching and roller skating. Top priorities are being in nature and being active. The forest and river are the most compelling settings people would seek within the park, while favorite landmarks are the site's heritage trees and wildflower fields.

## Sample popular combinations:

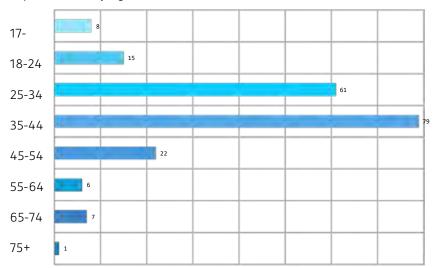

## Online Survey Feedback Summary (206 responses)

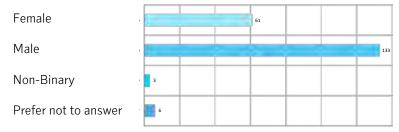

Participants who took the online survey after Community Meeting #3 largely preferred the Ranch and Forest Fields schemes (see details on pages 12 and 13).

The majority of general comments were in support for for a BMX/mountain bike track and skate park for all skills and ages. Other topics include support for nature preservation/wildlife, bird watching, open space, disc golf, running trails, a cultural center, agriculture, public boat access, sand volleyball, and roller skating.
