Examples of immigration enforcement assistance include, at a minimum: contacting an immigration law enforcement agency to provide the agency information about a resident or person in custody, transferring custody of an individual to an immigration law enforcement agency, responding to an immigration law enforcement agency's request for information, providing backup for an immigration law enforcement agency operation, engaging in joint operations with an immigration law enforcement agency, and facilitating immigration arrests or interrogations of individuals in conjunction with an immigration law enforcement agency. The report should include the number of officers that assisted immigration law enforcement, the amount of time those officers were involved in such assistance, the financial resources and human resources dedicated to such assistance, the number of individuals arrested as a result of immigration law enforcement assistance (if known), the number of these arrestees charged with criminal offenses, if any and if known, the number of arrestees taken into federal immigration custody for alleged civil immigration violations (if known), and, when it is possible to identify, what, if any, other criminal law enforcement work was scheduled to be completed and was delayed or was incomplete due to the immigration law enforcement assistance provided.
